Calderdale CTC Route Library – Searching for Routes in Ride with GPS

Ride with GPS (RWGPS) is online mapping software used by many Calderdale CTC members. Any route created can be made public and found by other users. RWGPS 'Starter Plan' is free to use. See
https://ridewithgps.com/

Note: there is an important distinction between Routes and Rides in RWGPS:
- **A route** is a map of a planned activity, containing a cue sheet (route sheet)
- **A ride** is a record of a completed activity. It includes data about the ride e.g. speed and time, but not a cue sheet.

1. Go to your account at https://ridewithgps.com/ and select **Find** from the top menu

	Jump To ∨	Find	Route Planner	Stories ∨	Help

2. Enter the distance from your starting point, the starting point, and the keywords (see below):

Find a Route
Where would you like to ride?

Look in: **All Rides and Routes**

⇐ Will look in the entire RWGPS Route Library i.e. all routes made public by anyone.

Starts within **1 mile** of

⇐ **1. Select the distance from your starting point (see next box)**

Halifax, England, GB

⇐ **2. Enter your starting location e.g. Halifax UK, Brighouse, Windmill Court Hotel**

Keywords

calderdale ctc ossett

⇐ **3. Enter keywords <u>Calderdale CTC</u>** (that will be in the description of all our routes) plus the **<u>Destination</u>** (that will be in the title). More keywords may narrow down the search

Length

Any length

⇐ Can choose min and max length by dragging the blue circles.

Elevation

Any elevation gain

⇐ Can choose min and max elevation by dragging the blue circles.

Only Show
- ☐ Upcoming Rides
- ☐ Events
- ☑ Routes with cuesheets
- ☐ Segments

⇐ 4. Select "Routes with cuesheets" if you want to use the route as a navigation aid.

Recommended For
- ☑ All recreation types

⇐ Can narrow your search to just "cycling".
